Grand Aladden, what color and the conformation to go with it. Great topline, body, very clean under the neck, just a sharp looking bull with very nice horn growth. With the Texas Ranger JP blood line and his color who wouldn't want him!

This bull is turning out to be a great herd sire. He is throwing really fancy calves that are black and white or black and white speckled and other cool colors. He has some great horn growth and stands tall with a nice body and is doing a great job for me.

Look at who he's out of! A Superbowl dam with 70 1/8" t2t as a 5 year old. Sired by Victory Lap 68.75" t2t on 11/16/09. He's got lots of color and showing some brindle. Nice topline, body and horn growth. Look at the direction those horns are going. His dam, Cutting Bowl, is 75" T2T.

## SUPER BULL ZHIVAGO

If this bull calf turns out anything like his full sister with 71 3/4 " before turning 6 years old he should have great horn growth and don't forget a dam that has Zhivago in her pedigree. He is a brindle colored calf.
